

OMNILOG

New Generation Mobile Phone Recording Solution !

This mobile solution satisfies all your mobile recording needs. It will let you record a phone call automatically, or on demand by simply pressing hotkeys of your own choice. You can browse, label, delete and transfer all the recorded phone calls with ease.

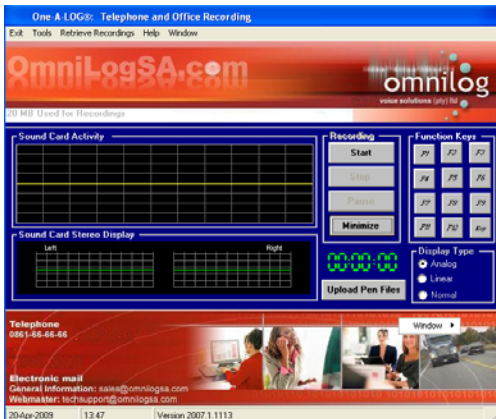

Our main advantage is that you retain possession of all your recorded conversations! Do you really want your personal recorded phone calls stored somewhere / somehow and on someone else's web site?

Combined with the One-A-LOG recording application, you can now store and file all your mobile phone recordings in an easy retrievable format on your personal computer.

Product Features:

- Upload your recordings,
- Add detailed notes,
- Convert to MP3,
- E-Mail conversations,
- Enhance sound quality,

Record / Upload / Store / Manage all cell phone recordings !
