OmniLOG Stealth Cam Solution

Top Uses for Hidden Spy Cameras

1. Catch a cheating spouse with a Covert Camera.
2. Use an Exit Sign Camera to catch your Employees leaving work early.
3. Record your roommate eating your food or stealing your money with a Wall Clock Spy Camera.
4. Use the Functioning Motion Detector Hidden Camera to record intruders in your home.
5. Keep an eye on your children while they're in the hands of a Babysitter or Nanny with an Air Freshener Hidden Camera.
6. Use a Mantel Clock Hidden Camera to spy on your teenage daughter and her boyfriend while they're "watching a movie" in your living room.

StealthCam have eliminated the requirement of additional recording equipment for a covert system. Sporting Mpeg4, 30fps, Motion detection, and Time & Date stamp, the hidden camera records directly to a SD card for storage and it can easily be played back on your PC. Capable of being built into different styles and featuring a knockout price, Stealth Cam is the only all-in-one solution.
